

## South Carolina Litter Commission Supervising Agencies for Litter Violations

You have been ordered by the judge or magistrate to perform community service. Participation in this program does not release you from responsibility of any additional court fines and costs.

The following sites have been approved for required hours only. The **verification log** must be completed with authorized signatures for the approval of hours and locations worked. The site supervisor must sign the verification log before returning to the county magistrate. It is your responsibility to return all documents.

Please remember to dress appropriately for the work you will be performing. All necessary equipment will be provided to complete the assignment. Abide by the safety instructions given by the supervisor.

Listed below are the agencies that have been approved to offer litter removal for community service. Please contact directly the agency of the county in which you live to schedule your hours.

*Only the agencies that have been listed here will be honored for hours worked.*
